.....music to get married to

We like Weddings. And we like Music.

These are two of the reasons why we started London Wedding Disco.

We realise that there's more to providing a good disco than flashy lights and big speakers, and that when you are organising the finer details for your event, you want to deal with a professional company that listens to your requirements.

We provide discos for Weddings, or any other function for that matter (but we like Weddings best).

We are based in Kingston, South West London, but we can, and frequently do, travel pretty much anywhere within reason if you want us to.

We've got all the modern equipment, and all the usual songs people dance to at Weddings, so why not click on some of the links above to find out why we think we are a little different to everyone else.

If you have any queries please call 07961 346313 or email - we don't charge to talk to us, and even if you don't decide to book us, we may be able to give you a few tips about what to look out for when booking someone else.

We started doing this because we like music, and we believe that this is pretty important- if your DJ looks like he's having a good time, your guests are more likely to do the same.

However we pride ourselves on being different to other mobile discos you may have seen before. We don't talk constantly over records. We don't think we are destined for a local radio show. We don't think that music isn't what it was when we were younger. We don't think that we should dictate what music you should have played at your Wedding.

That's not us.

So if that isn't what we are, then what exactly are we about?

Well, we don't want to spoil the illusion, but the main thing we do is play songs- but we play good ones. Really good ones.

We also appreciate that you or your guests may know some good songs, so you can provide us with as many, or as few, requests as you like before, during, but not after your event. We'll even try to play them.

We also recognise that you're the boss. So if you want the music louder, we'll make it louder. If you want it quieter, we'll make it quieter. If you want it as it is, then we won't change a thing.

Want your first dance last? Or in the middle? Or not want a first dance at all? Then that's fine too.

We can arrange to meet up with you before your event to talk about how you would like it to be.

When you book us, you can be sure we turn up for your event- we're not an agency who passes work on to other DJ's, so you know that the person you speak to from your initial enquiry will be the same person that turns up on the night.

We have experience of almost every type of event you can imagine- from Student Unions to Working Men's Clubs, Liverpool to Gibraltar. We've worked at events and in locations that your average disco probably hasn't, and we learnt our trade at a major venue in Sheffield working on concerts for Robbie Williams, Reef, even Boney M. Although I have my doubts as to whether they were a Boney-fide Boney M.

We can also work our set up times around the event- if you want all the gear set up before guests arrive we can do that too. As someone once said "Anything is possible". Pretty much.

We do have Public Liability Insurance, we do confirm all bookings in writing, we do contact the venue direct so you don't have to ask them questions for us, and we do call you a week before the event, just to make sure you are happy with everything.

We've been doing this in various parts of the country for over 10 years, and during this time we have learnt what makes a night a night to remember.

For those of you of a "technical disposition" we run Crown amplification, RCF/Mackie speakers, Denon CD players, and our light show includes DMX Scanners and Datamoons, Oil Wheel Projectors, a Mirror Ball, and a giant Mirror Ball. Each rig is tailored to the venue.

We don't have a price list or a range of "packages" - we quote for each event based on your specific requirements. We're not the cheapest, but we're also not the most expensive. However we believe that we do provide exceptional value for money.

Like we said earlier, it's not rocket science, we just think of it as providing a good service, and it seems to work. Or at least that's what the people in the picture above seemed to think.

We realise that no two Weddings are the same, and that's why we are more than happy to discuss any "specific" requests you may have, as quite often it's the attention to detail that can turn a good night into an unforgettable night.

This can be absolutely anything relating to your event- maybe you want a specific style of music, or you only want pink lighting and a giant mirror ball- these are the type of things that make a Wedding unique, and no idea should be discounted without running it by us first.

How about music in a different room to the dance floor, or maybe different music entirely somewhere else in the venue? Again, it can all be done- all you need to do is ask- if we can sort it, we will do.

We can also do more advanced AV tasks such as video projection, multi room operations etc etc. Please ask for more details.

We've been doing this for long enough to know a few people who can "sort" things that we don't do, so if there is another aspect of entertainment, again, we may be able to help, whether it be musicians, magicians, bands, artists, florists etc etc- if you are struggling to get something to happen, why not ask and we will see what we can do.

A page of links is currently being created for the site, so why not have a look at the companies already listed- if there's something you are missing that isn't there then let us know as we are constantly making new contacts, or at the very least, will know someone who knows someone!

We also know a variety of venues in our part of the world from the traditional to the more unusual. Should you have yet to decide on a venue and want any suggestions, again, let us know and we can see if we can help.

As a company we made a conscious decision not to pay for advertising- we prefer to work on the principle that happy guests are the best advertising we could hope for. Below are a few comments we have received from previous customers or guests who have attended functions where we have worked.....these are all real quotes- we could have made them up, but that wouldn't be very honest. More detailed references can be provided if required.

We had a great wedding day, the disco was fab, music was spot on and everyone said what a good time they had.
Thank you so much.
HM, Thornton Heath.

I recently went to a 30th Birthday where you DJ'd (5th Jan at the Walrus in Waterloo) and I thought you were fab! I'd love to book you for my husband's 30th if possible.
ND, London.

You sold yourselves too well to Vics last weekend! Can we book you for the wedding on Friday the 22nd December in Gloucestershire?
JD, Earls Court.
(Yes, we did go to Gloucestershire.)

My new wife and I would like to thank you for helping make our wedding day such a success. Your disco was a big hit and I have since had many people raving about the great music. In addition to the event itself, you were very professional during the preparation. You were flexible to our requests and worked extremely well with the live band to provide a slick and enjoyable event. Couldn't have gone better. Thank You.
AM, Caversham.
